### Introduction

Parker's three-piece SWB Series Ball Valves are durable valves that can handle the pressure and piping loads. The center section can swing out to quickly and easily replace seats, seals and the ball without major disruption to the piping system.

Model Shown: 8Z-SWB8L-RT-BN-SS

#### **Features**

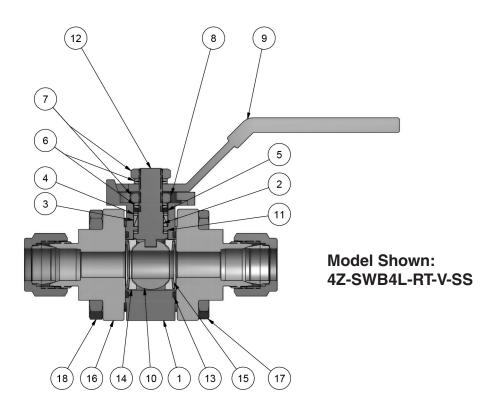

- ► Ultra low internal volume
- Free floating ball design allows for seat wear compensation
- ► Self-compensating stem seal
- ► Spring-loaded seats
- ▶ Blow out resistant stem
- ► Fully enclosed body bolting
- ▶ Four bolt construction
- ► ISO-type actuator mounting design
- ▶ Pneumatic and electric actuation options
- ▶ 100% factory tested

- 1 Optional Seat and Packing Seal materials are described in the How to Order section.
- 2 Optional Seal materials are described in the How To Order Section.
- 3 Size 8 SWB Series Ball Valves only require 3 Stem Springs.
- 4 PEEK seated SWB Series Ball Valves do not have Seat Springs.

# Pressure vs. Temperature

**Note:** This Pressure versus Temperature chart reflects the use of indicated seat materials in Stainless Steel valves without consideration of seal materials. When combining seat and seal materials, the most restrictive temperature rating of the seats or seals becomes the limiting factor on temperature range. Please refer to **page 24** for seal temperature ranges.

<sup>\*</sup> Tested in accordance with ISA S75.02. Gas flow will be choked when  $P_1 - P_2/P_1 = x_T$ . † For CPI<sup>™</sup> and A-LOK®, dimensions are measured with nuts in the finger tight position.

Dimensions in inches/millimeters are for reference only, subject to change.

### **How to Order**

The correct part number is easily derived from the following example and ordering chart. The four product characteristics required are coded as shown in the chart.

The example below describes a SWB8L Two-Way Ball Valve with 1/2" A-LOK® end connections for ports 1 and 2, reinforced PTFE seats, Nitrile rubber body seals, and stainless steel construction.

\* Note: If ports 1 and 2 are the same, eliminate the port 2 designator.
